2talk Keypad Chrome Extension

In today's fast-paced digital environment, efficiency and seamless communication are essential for staying productive. That's why we've developed the 2talk Keypad Chrome extension—a simple yet powerful tool that brings your calling capabilities directly into your browser.

Whether you're making calls, managing multiple conversations, or dialing numbers from a webpage with a single click, this extension is designed to make your daily communication faster, easier, and more intuitive. In this article, we'll show you how to install the extension and walk through its key features.

Just log in with your active 2talk account and start calling seamlessly from your browser. Not a user yet? Sign up and experience smarter calling today.

Make and receive calls with your 2talk numbers directly from your browser, and click to dial any phone number on a webpage. The 2talk Keypad Chrome extension simplifies communication by allowing instant click-to-dial functionality and in-browser calling—no need to switch apps.

Key features include:

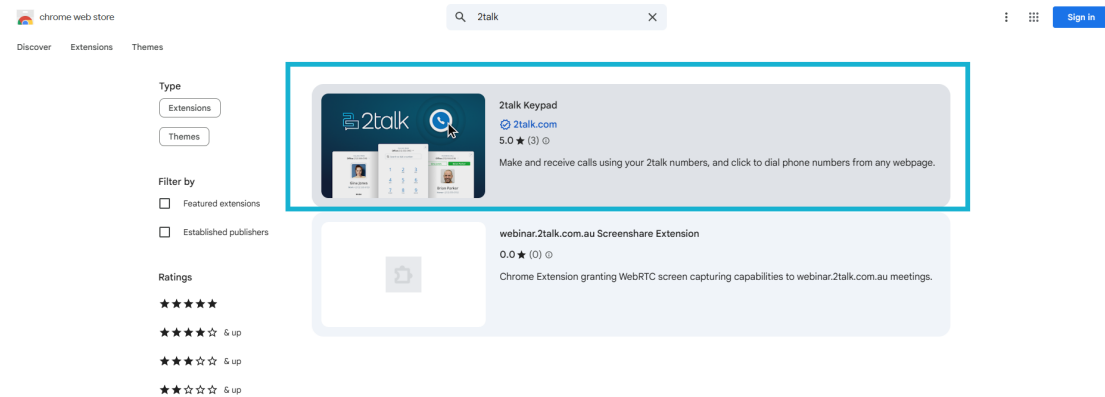

Click to Dial: Call numbers from any webpage with a single click.

Advanced Call Handling: All our best in-call features are available through the extension, including transfer, merge, hold, managing multiple calls, and viewing live call recording status.

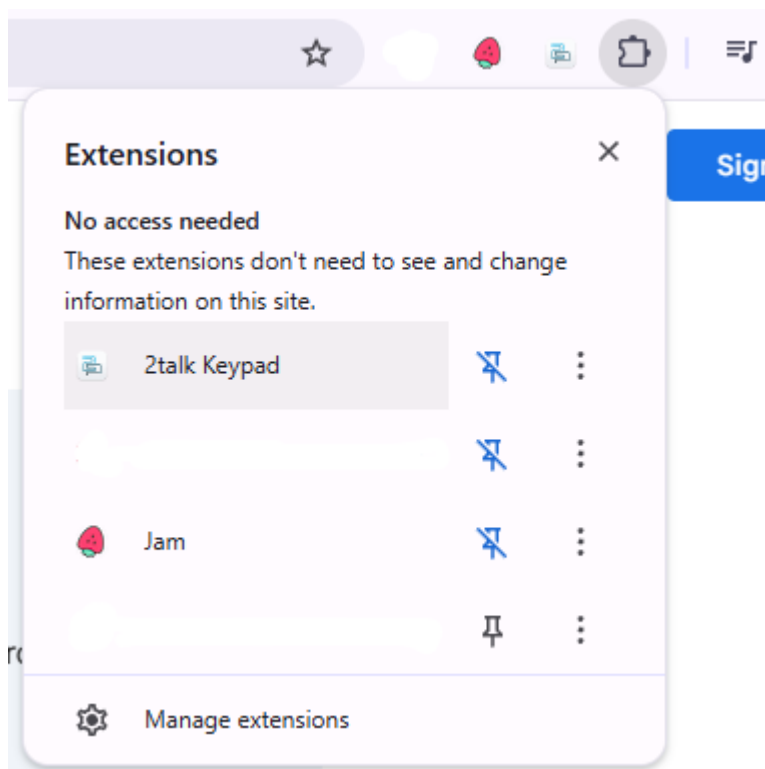

The image shows a screenshot of the 2talk website and the 2talk Keypad Chrome Extension interface. The website header includes the 2talk logo, navigation links (Products, Features, Numbers, Pricing, Blog, Partners), and contact information (Call us 800 283 1332, Support, Log in). The main content area features a large heading "Business communication made easy with 2talk." and a subheading "Stay connected with your team and your customers. Take your business everywhere, with calling, messaging, and video across all devices. More than a phone number and a great Cloud PBX. With 2talk, you get a Cloud business communication solution to help you grow your business and save up to 80%!" A "VIEW PLANS" button is visible. The 2talk Keypad Chrome Extension interface is overlaid on the website, showing a call in progress with the number +1 424. The keypad includes icons for microphone, call recording (REC), call transfer, call merge, call hold, and a red hang-up button. The extension also displays the 2talk logo, the text "CALLING FROM +1 424", and a timer showing "00:05". Below the keypad, there are several award logos, including "2023 INTERNET TELEPHONY HOSTED VOIP EXCELLENCE", "2024 INTERNET TELEPHONY EXCELLENCE", and "2023 INTERNET TELEPHONY EXCELLENCE". At the bottom of the page, there are logos for various partners, including Westland, Allied 100, Vantage, Diversified Supply Inc., German-Bliss, Sling Pilot Academy, and Pinnacle Hospitality.

How to Install your 2talk Keypad Extension

- Open the Chrome Web Store in your browser.
- Search for “2talk Keypad”.

- Click “Add to Chrome”, then confirm by clicking “Add Extension”.
- Once installed, you'll find it in the extensions menu located at the top right corner of Google Chrome.

- Log in with your 2talk account to start using your numbers.
- The extension will request permission to use your microphone—please select the **"Allow while using"** option. Don't forget to pin the extension to your Chrome toolbar for quicker access.
