How does Video Conference work?

2talk App now allows you to start or join a Video Conference meeting.

There are two options: You can Host a Video Conference or Join a Video Conference.

Quick Guide for Hosting a Video Conference:

Hosting a Video Conference is where you can start a video conference by sending a link to invite people to join you in meetings.

1. Tap on the **Video Conference** button, on the keypad page.
2. Tap on **Start** new meeting.
3. Tap on **Invite** others.
4. Send the **link** to the people you would like to **join** your meeting.

Quick Guide for Joining a Video Conference:

Joining a Video Conference is where you receive a link from someone that has invited you to join a meeting.

1. Tap on the **Video Conference** button, on the keypad page.
2. Tap on the **Join** meeting button.
3. Paste the **link** you have received on "Enter code".
4. Tap on the **Join** button.

The video conference records will be located on the History Page. [Click here to read more about Understanding History Page.](#)
