# Multi-Language User Settings

With our Cloud PBX, you can select between the following languages:

- English (5 Regions)

- Espanol

- Portuguese

Follow these steps to switch languages in your account profile:

1. Select your **User Icon** from the top right of your Cloud PBX - this is your initials.

2. From the dropdown options, select **Your account**.

3. You will be presented with **Your details** screen and you can select your preferred Cloud PBX language from here.

4. Click **Save**. When you go back into any other screens or options, you will see these are now in your preferred language.

Select

English (Australia)                          ✓

English (NZ)

English (US)

English (UK)

English

Español

**Your details**

Name

Email

Password                                              CHANGE

Date format

Language          English (Australia)        ⌄

Time zone         Australia/Sydney [ +10:00 ]   ⌄

Accounts

                                                      SAVE

Note: From inside Your account details, you can also change your Time zones.
