Yealink Factory Reset Santiago Garcia - 2024-08-16 - Yealink Devices

## **Yealink Factory Reset**

Occasionally, refurbished or used phones may encounter issues with our <u>Device Provisioning - Yealink</u>. When this happens, we recommend performing a factory reset on the phones. For Yealink devices, simply hold down the 'OK' button for 5 seconds, as shown in the graphic below.

The alternate (and slower route) to factory reset is to log into the phone and factory reset from the Settings Menu.

- 1. Enter the **IP address** on your browser (eg 192.168.1.xx).
- 2. Username and Password: admin/admin
- 3. Settings | Upgrade >> Reset to Factory

Status Account Network	DSSKey Features Settings
