Device Provisioning - Grandstream ATA

Registering your **Grandstream** in our **Device Provisioning** ensures that you can get your Grandstream up and running in minutes.

- 1. Log into your <u>account</u>.
- 2. Click on **Tools** | **Device Provisioning**.
- 3. Choose Add Device.
- 4. Select **Device Type** (Grandstream type).
- 5. Line Settings | Select Phone Number | Grandstream | Name Device
- 6. Supply **MAC address**.
- 7. Add Time zone | Time Format
- 8. Line Key2: Select Number or Feature
- 9. If this is a BYO Yealink Select '**SAVE**' and manually restart the handset.
- 10. Once provisioned by our Device Provisioning any further changes made from within the portal will automatically restart the handset to reflect your changes
